Re: **Proposed Patent Applications Relating to Bluetooth Technology**
Inventor: Dr. David Famolari
My References: APPS 1425 and 1426
Your Reference: None Assigned

Dear Mr. Garner:

Attached hereto are two more patent disclosures by Dr. Famolari relating to Bluetooth. I am also attaching a spread sheet printout wherein Dr. Famolari has categorized all his inventions relating to Bluetooth into six separate areas. Dr. Famolari has categorized the two subject disclosures under "Patent Area #6 - Network Configuration".

Please prepare specifications for filing utility patent applications for the two disclosures identified in patent area 6. For your reference, the Telcordia attorney docket numbers for these inventions are APPs 1425 and 1426, as is indicated in the attached spreadsheet.

In accordance with our new guidelines for managing outside counsel in drafting specifications, I expect to receive final utility patent applications for filing within three months of the date of this letter. If you are unable to meet our three-month deadline, do not hesitate to give me a call to work out a modified target completion date. After every incremental ten (10) hours have been billed on these disclosures, I expect a telephone call from the drafting attorney(s) with a progress report. In addition, please instruct the drafting attorney(s) that we will prepare the formal drawings needed for filing. Therefore, the drafting attorney(s) should prepare only informal drawings and provide us with copies of any prior art references disclosed by the inventors. We shall prepare any Information Disclosure Statement (form PTO-1449) in-house.

We hereby request that your staff implement the following formatting requirements when preparing the utility patent applications and diskette labels. These requirements are intended to ensure the uniform preparation of all Telcordia patent applications.
